BULBS AND PLANTS

FALL 1917

BULBS in the fall are now a necessity to all who love flowers—both for indoor blooming in winter and for planting outside in the fall for next spring's blooming. No money you can invest will bring you such pleasurable returns as that invested in bulbs.

They are easily grown in living rooms, are not affected by the common changes of temperature or gas, and very easily taken care of, and for beauty and fragrance they excel any other flowers.

Narcissi, Crocuses, Scillas, Snowdrops and Tulips are especially suitable for planting in clumps along

streams and in fence corners. If planted in clumps in a sheltered spot, they will produce a mass of color in spring.

A few bulbs, scattered here and there, produce but little effect, but when planted in masses or in groups, they become at once grand and brilliant and eclipse in variety of coloring and picturesque effect almost any other flower. We only offer such kinds as can be used with perfect success either indoors or out in the garden. Tulips require cultural treatment similar to Hyacinths; the bulb, being smaller, should not be planted so deep. When grown indoors, put 6 bulbs in a 6-inch pan or pot.

WHEN TO ORDER. It's best to order promptly on receipt of this list, but they may be planted outside any time up to freezing weather. Practically all the bulbs in this list are ready in October, some of them before.

The stock that we send out is the same that we use ourselves and is not a lot of cheap bulbs that are often used in the cheap collections advertised, but is all **HIGH GRADE STOCK**. We have endeavored to put the price as low as possible for this grade of bulbs.

SPECIAL NOTICE: Owing to the war in Europe bulbs may be a little later than usual in coming from Holland. Customers will please be patient if your bulbs are not shipped all at one time or some variety late on arrival.

Cable advices on Aug. 22nd state that Holland Bulbs are now on the water enroute to the United States, so that we are reasonably sure of filling your orders early this year.

Tumbler Baskets—Filled with flowers—a most appropriate gift. \$1, \$2, \$3 and \$5 each.

HOW TO PLANT YOUR BULBS

A careful study of the engraving will show you the exact depth and distance to plant your bulbs outside. Spade your ground up well—good and deep—well pulverized and rich. Then smooth off the soil and firm with brick or board. By using a round stick a little larger than the bulb you are planting, you can easily make holes the right size and depth. Drop your bulb in right side up, fill up the hole and again pack solid; firm and give thorough watering when the ground is dry outside.

When the ground freezes in the Fall give a thorough mulch, leaving same on all Winter and gradually remove the mulch in the Spring.

We consider it advisable when the ground is thoroughly moist after you have placed your mulch on the same, to cover the entire bed up with boards or roofing paper so as to prevent it from getting very wet in the Spring and the freezing and thawing in the Winter.

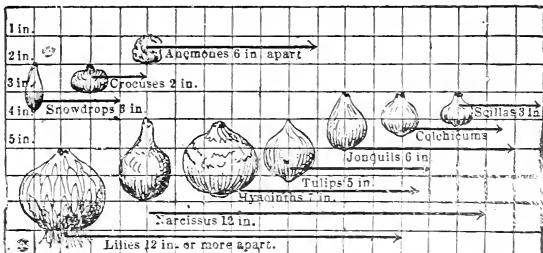

For inside use, plant your bulbs in light sandy soil, firming them well in the soil with crown of the bulb just below the surface. Give them thorough watering; then plunge the pots in the cellar to the depth of three or four inches above the pot. Examine them occasionally and if they become dry give them a thorough watering, keeping them buried from four to six weeks till they are started. Then remove them to the light and grow cool. Do not bring them to the light until they are thoroughly rooted and started and do not put them in a hot, sunny place, as this will have a tendency to make short, inferior blooming stalks. A light, cool, sunny window is best for the growing of all bulbs in the home. Hyacinths will have longer spikes if grown in the shade.

FLOWERS FOR THE HOUSE THE SEASON THROUGH

You enjoy having flowers in the home and having them on the table when you have a few friends in; why not have them often? A part of the year you cannot grow them, but we make it easy for you to have them whenever you like, at a small cost.

LATE FLOWERING TULIPS

This section of the Tulip family deserves more attention. Being of great beauty and coming into bloom in May, a splendid succession of bloom can be had when planted along with the early Tulips. They are extremely hardy and particularly fine for planting in clumps among shrubbery or in the herbaceous border. The flowers being borne on extra long stems make them invaluable as cut flowers and they have the added value of lasting a long time when cut and placed in water. (Unless noted are all single.)

Late Flowering Tulips.

Bouton de Orange. Pure yellow.
Darwin Tulips. Very brilliant. Color varies from pale blush to brightest red.

Parrot Tulips. Large size, beautiful variegated and fringed, mixed.

Bizarres. Mixed flowers beautifully blotched, striped and feathered with crimson, pink, scarlet, rose, lilac and purple on yellow ground.

Maiden Blush. Pure white, with beautiful margin of rose.

Gesneriana. Scarlet, blue center, sweet scented, one of the best.

Parisian Yellow. Large pure yellow flowers, borne on long stems (doubles.)

Hybloom. Flowers beautifully blotched, striped and feathered with pink, crimson, scarlet rose, blue and purple on white ground. Very showy.

Isabella. Beautiful variegated salmon pink.

Parisian White. Large pure white, double.

Gretchen. Soft blush.

Sultan. Maroon black.

Picotee. White with rose edge, pointed petals.

La Merveille. Scarlet suffused orange.

Baron de Tonnaye. Bright pink.

Wedding Veil. Pure white Darwin.

Lantern. Light lilac.

La Candeur. Tall, almost pure white.

Gesneriana Orange Globe. Brilliant orange red.

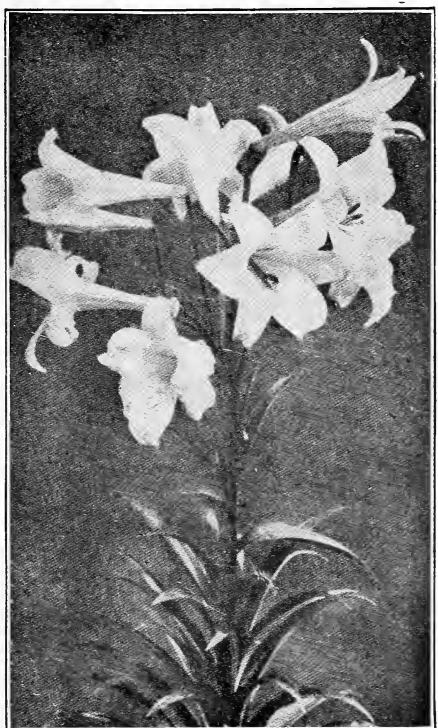

Macrosilia. Crimson, scarlet, black zone.

Price of late flowering Tulips, 40 cts. per doz., \$3.00 per 100. Prepaid.

SPECIAL MIXTURE OF LATE FLOWERING TULIPS.

LILIES

JAPANESE EASTER LILIES

(*Lilium Longiflorum Giganteum*.)
Ready in October

This is the best of all Lilies for indoor pot culture, bulbs planted latter part of September can be brought into bloom by Easter or before if kept in a warm room or a greenhouse after roots have been thoroughly established. Flowers are large trumpet shape, pure white in color.

First Size Bulb. 20c each, 3 for 50c.
Extra Size Bulbs. 30c each, 75c for 3.

Lily Formosum. A different type of Easter Lily, tall in growth, very easy to grow and produces splendid heavy petal flowers. 1st size 20c each, 2nd size 35c each.

Long Island Grown Hardy Japan Lilies. Owing to their late arrival it is almost impossible to plant some varieties of Japan Lilies in fall. So we have made arrangements for home grown stock for delivering by October. Plant immediately on receipt out side, protect well during winter.

Batemanni. 3 to 4 ft. high, large clusters of reddish orange colored flowers. Flowers in August. 25c each.

Canadense. Lovely bell shaped flowers, yellow, spotted black, 20c.

Wallacei. Very floriferous, beautiful flowers, delicate apricot. 20c each.

Melpomene. Frosted white, spotted and bordered pinkish crimson. 25c.

Album. Pure white, a tint of buff on petals. 35c.

Rubrum. Deep rose, spotted crimson and white. 25c.

LILY CANDIDUM

This is one of the oldest, loveliest and best known Lilies. The flowers, of which there are three to twenty on each stem are snow white, with heavy yellow stamens and of the most delightful fragrance. It is hardy and will thrive in any ordinary garden soil, preferring a position where it can get plenty of light and air. Bloom in the open ground about June 20. We recommend early planting of this Lily, as it makes its leaf-growth in the fall, and thus prepares itself for early blooming. Orders should therefore be sent in on receipt of this Catalog. Once planted they should not be disturbed for years, and customers will do well to plant a bed of 25 or more. **Select Bulbs** 20 cents each; 3 for 50c; 12 for \$1.75.

CROCUS

Especially suited for edging beds; blossoms very early in Spring.

NAMED VARIETIES CROCUS

20 best varieties, 3-inch pot plants, 10c each, \$1 per doz.

VIOLETS

Hardy Russian. Single deep blue; perfectly hardy; good bloomer fall and spring. 10c, large clumps 20c.

Prince of Wales. 10c each, larger 20c each.

FERNS

Ostrich Plume Fern (*Nephrolepis* *Whitmani*)

Unquestionably the most valuable *Nephrolepis* of the Ostrich plume type yet introduced. Of dwarf and compact habit, the pinnae are deeply divided giving the plant a very graceful appearance, does not often revert to the common Boston fern. Small plants 25c and 50c each; strong 5 inch pot plants, \$1 each; extra fancy specimens, \$1.50 and \$2.00 each.

Boston Fern (*Nephrolepis Exaltata* *Bostoniensis*)

Nephrolepis Whitmani

The most popular house plant in cultivation. In well known specimens, the fronds attain a length of 6 or 7 ft., like plumes arching over in a most graceful manner. A very fine plant for hanging pots or baskets on the piazza in the summer and conservatory in the winter. First size, 15c each, 50c for 4; second size, 25c each, \$1.00 for 5; third size, 50c each, fourth size \$1.00 each.

Beautiful specimens, \$1.50 and \$2.00 each.

Adiantum Rhodophyllum. A miniature Farleyence but easier to grow. 25c
Dwarf Boston Fern. (Teddy Jr.) Of more dwarf and bushy growth than the Boston. Fronds droop gracefully and

are not so long and coarse, the leaves are more crinkled. A rapid and easy grower. 25c, 50c and \$1.00 each.

Giant Boston Ferns Roosevelti. Stronger grower than the Boston fern—long heavy leaves, having a wavy appearance—a valuable novelty. Strong plants 25c and 50c each; 5-inch pot plants \$1.00 each.

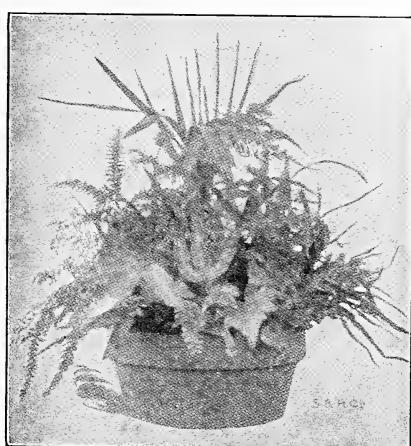

FERNS FOR DISHES IN THE HOUSE

We have a good stock of the best growing varieties suitable for fern dishes and single pots in the home. Small plants suitable for fern dishes, 10c each, 5 for 50c, 12 for \$1. Larger size for specimen plants, 25c each.

Japan Air Plant. Similar to a very fine feathery Fern, very odd, lives without water or soil. Should be hung up in a little vase. 20c each, 3 for 50c.

FERN DISHES. Several kinds, both in glazed and Rockwood ware, 25c, 35 and 50c each.

JARDINIERES. We carry a beautiful lot in splendid assortment of fancy kinds. 25c, 50c, 75c and \$1. Very fancy ones, 12 to 16 inches across, \$2 and \$2.50 each.

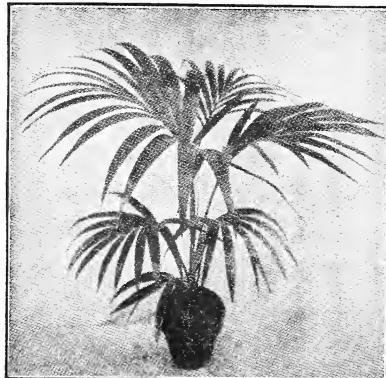

Fern Dish planted with Ferns.

PALMS

Keep in moderately warm room; sponge the foliage off frequently with warm water and whale-oil soap-suds and then with clear water, especially in summer and do not expose to the scalding rays of the sun in the summer.

Kentia Belmoreana and Kentia Fos-teriana, 50c and \$1 each; large size, \$3 and \$5 each.

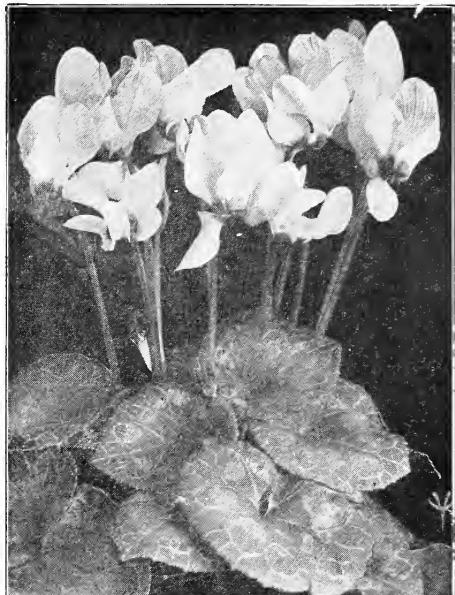

Kentia Palm.

Latania Bourbonica. (Chinese Fan Palm.) 50c, \$1 and \$2.

Phoenix Robelenii, one of the great palms of the future, combining the

grace of the Cocos and the hardiness of the Kentia. \$1 and \$1.50 each.

Cocos Weddeliana, most elegant and graceful of all the small palms. 50c and \$1 each.

CYCLAMEN PERSICUM

As a winter flowering plant there are but a few that surpass the Cyclamen. Plant in rich soil and water sparingly until it is well started, when it can be treated like other house plants. Small plants suitable for next winter's bloom. 25c each. Second size, winter's bloom. 25c each. Second size, 50c. Largest size, \$1.00. Extra large, \$1.50.

PRIMROSE

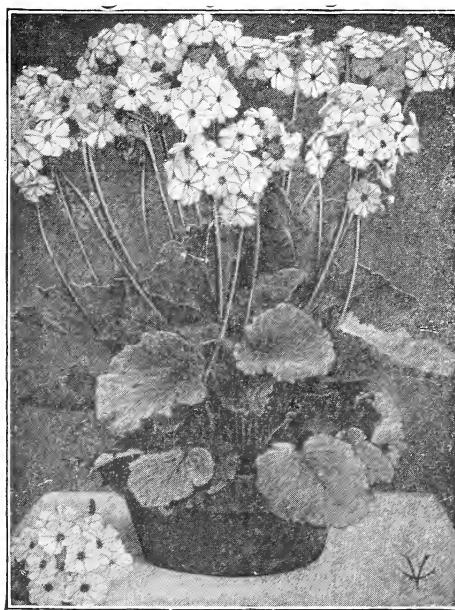

Chinese, assorted colors, 15c each, 2 for 25c. Larger size, 25c each. Extra large 50c each.

Obconica, everblooming, 15c each, 2 for 25c. Larger size 25c each, 3 for 65c.

Baby, 20c each, 3 for 50c.

POINSETTA

This beautiful Christmas-blooming plant is the admiration of all who see them. Would not advise you to buy them before November, securing the plant in full bud, ready to bloom. A description of the plant is hardly necessary, as you have all seen pictures and descriptions in the magazines. Price for Christmas-flowering, strong, 5-inch pot plants, 50c each; pans, made up of 3 plants, \$1.25. Pans of 4 plants \$1.50 and \$2.00.

Primula Obconica.

Hardy Shrubs and Plants to Plant Out in the Fall

We would recommend Fall planting for nearly all hardy Perennials, plant early in September or October and protect well with coarse covering after ground becomes frozen late in fall.

Our space is so limited, that it is impossible to list only a very few of these beautiful hardy plants. See pages 39 to 48 of our Spring Catalog. Sent free on application.

Shasta Daisy

Hardy Shrubs. Would recommend the following for Fall planting. For other varieties see last Spring's catalog.

Barberry Thunbergi. 18-24 inch, bushy, 25c each; \$2.50 per doz.; \$15.00 per 100.
